F

The Banco Sabadell Foundation is the embodiment of Banco Sabadell's commitment to people's progress and wellbeing

Drive excellence and promote knowledge, culture and understanding in the educational, scientific and cultural fields

Support and be by the side of young talent

At the Banco Sabadell Foundation we see the promotion of culture and the support of talent as strategic pillars to take on the challenges facing the world today and to move forward as a society.

In 2021 we have consolidated our commitment with these areas of activity. We have successfully increased the recognition of young talented people under 42 years of age with scholarships, grants and awards, and we have also enhanced the transformative role of culture through collaborations with different institutions that seek to bring culture and society closer together.

We gear our schemes and collaborations towards social commitment and environmental requirements, exerting a positive impact, be it directly or indirectly, on one or several of the SDGs defined as being priority goals or additional goals by Banco Sabadell.

This report is intended to serve as a useful instrument that explains the activities promoted by the Foundation, always remaining true to our guiding principles of excellence, impact and proximity.

Proximity

We believe that proximity is the appropriate way to act on our commitment.

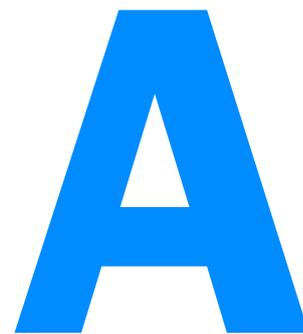

Excellence

We promote the excellence that comes from talent, hard work and equal opportunities.

Innovation

We encourage innovation, understood as the capacity to interpret the present in order to anticipate the future, an attitude that is needed in all areas.

Areas of Activity

We promote outreach, training and research activities in the educational, scientific and cultural fields, as pillars of social progress and wellbeing.

We support talent and foster excellence and innovation in science, technology, arts and humanities.

We also organise prestigious awards

**Banco Sabadell Foundation Award
for Biomedical Research**

**Banco Sabadell Foundation Award
for Economic Research**

**Banco Sabadell Foundation Award
for Science and Engineering**

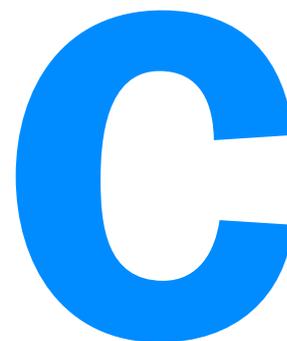

**ANFACO & Banco Sabadell
Foundation Design Award**

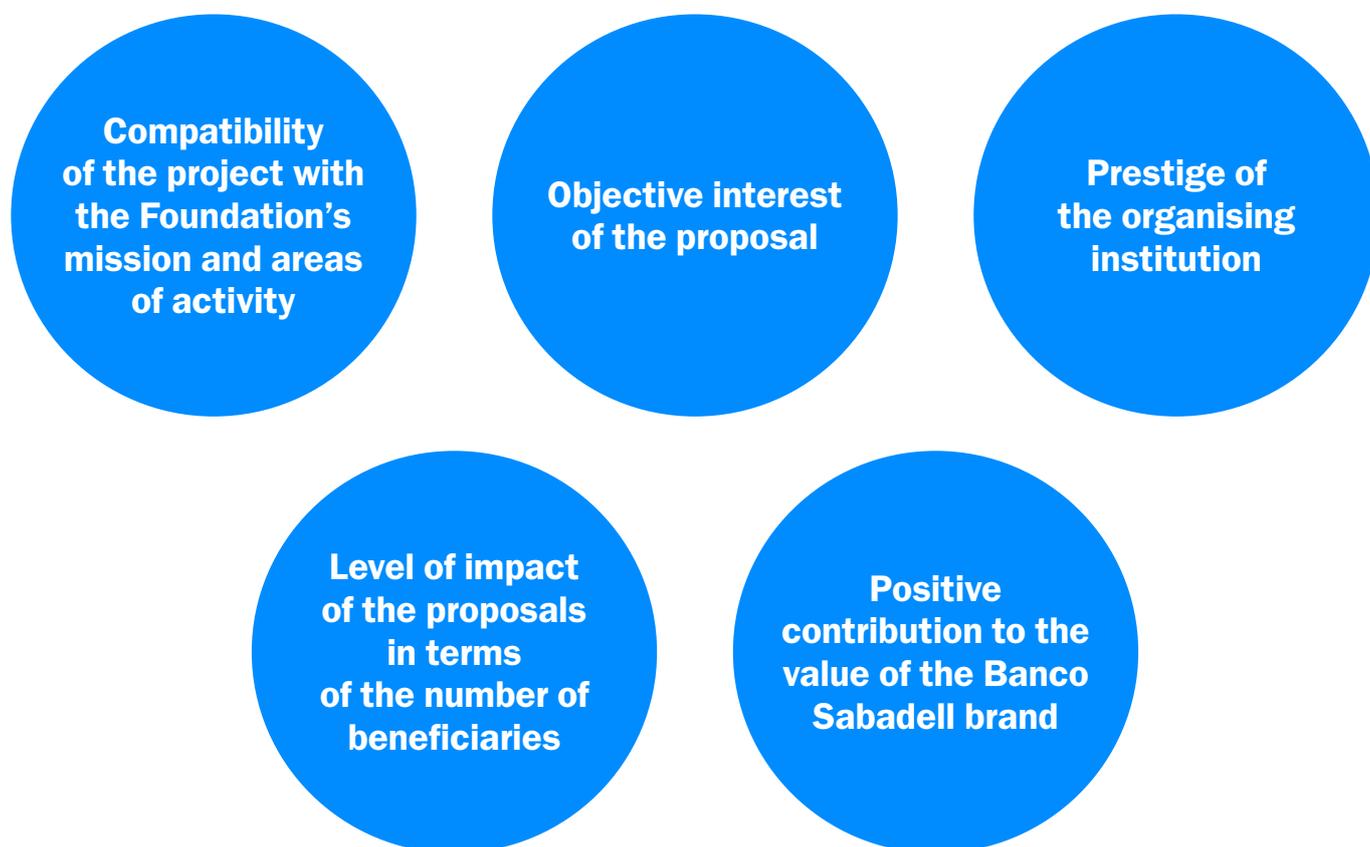

**CIDOB & Banco Sabadell Foundation
Global Talent Programme**

Action Criteria

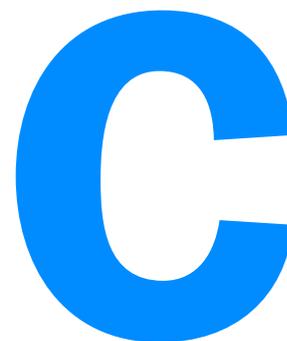

We share our founding values with the projects in which we collaborate, which are selected based on the following criteria:

The Foundation is managed by the Board of Trustees, a body that represents it and is fully empowered to carry out the Foundation's activities established by the Articles of Association and the Good Governance Code, which are coordinated with the management team.

Commitment to SDGs

The Banco Sabadell Foundation gears its programmes and collaborations towards its commitment to society and environmental needs, directly or indirectly working towards one or more of the SDGs defined as being priority or additional by Banco Sabadell, creating new opportunities through culture and talent as key factors of progress and social welfare.

We acknowledge culture's transformative power by supporting Spanish institutions that actively participate as agents of progress, transformation and change and by promoting cultural programmes and content with sustainable development and social impact at the forefront.

In addition, we continue to promote talent, excellence and competitiveness in the areas of education, culture and scientific research in order to build a better, more sustainable society.

We highlight below the impact of some of our collaborations and programmes on the Sustainable Development Goals.

SDGs	Commitment and impact through Banco Sabadell Foundation's collaborations and programmes
#3 Health and well-being	<ul style="list-style-type: none">— Promote and recognise the work of Spanish researchers in the fields of biomedicine and health sciences through the Banco Sabadell Foundation Award for Biomedical Research and the Banco Sabadell Foundation Award for Sciences and Engineering.— Support research works in the development of metastasis treatments through the Repte Metástasis project in collaboration with IRB Barcelona (Institute for Research in Biomedicine).— Collaborate in health training programmes such as that with the Fundació Parc Taulí and the Fundació Patronat Científic de l'Il·le Col·legi de Metges of the Balearic Islands.

#4

Quality education

- Work on excellence, innovation and sustainability to support, promote and bring culture closer to society.
- Promote the arts in any of their disciplines through awards, training and support programmes, incentivising expository proposals with differential value such as the collaborations with the Teatro de la Maestranza in Seville, the Eñe Festival, Foto Colectania in Barcelona, Fundació Òpera de Catalunya i Orquestra Simfònica del Vallès, with its opera programmes in Catalonia and Academia Jove, respectively, ADDA in Alicante, the CCCB and the ATempo programme, Arts i Formació.
- Support leading universities to promote talent with the award of grants or scholarships, including: ESADE, EDEM, University of Oviedo, San Jorge University, Francisco de Vitoria University, University of Leon and Jaume I University.

#8

Decent work and economic growth

- Opt for collaborations that aim to help talented young people to enter the job market, such as the #YobExit programmes with the Exit Foundation or Toolbox with the University of Murcia.
- Promote and recognise the work of Spanish researchers in the fields of economic knowledge with awards such as the Banco Sabadell Foundation Award for Economic Research, as well as the promotion of economic research through the Talent Global programme together with CIDOB.
- Co-creation of projects together with other leading institutions in their respective fields to support talent development and also offer BSab employees the opportunity to participate as mentors. Worthy of note is the social transformation programme B-Value and the Reto Futuro initiative geared towards vulnerable young people.

#10

Reduced inequalities

- Offer grants promoting equal opportunities in the access to study courses through grant programmes with various universities with which we collaborate throughout Spain.
- Promote social transformation projects such as Reto Futuro aimed at vulnerable young people.
- Support projects that address the needs of disadvantaged groups such as the B-Value programme that backs projects of third sector entities.
- Collaborate with programmes that seek to promote social integration, such as the ATempo programme, Arts i Formació that will be developed in the province of Girona and in Seville, Cineteca with Matadero Madrid, Horagai with La Selva Cooperative and the arts training programme with Arc Taller de Músics.

#11

Sustainable cities and communities

- Collaborate with projects that contribute to the reflection and dissemination of new paradigms in the development of sustainable cities, such as the Biennial Internacional de Paisatge's programme, the ADI Medals or the Summer Workshop and the RCR Bunka Open Programme.

#12

Responsible consumption and production

- Collaborate with institutions that have a project related to responsible consumption and production, such as B-Value.

#13

Climate action

- Encourage initiatives such as B-Value that support various third sector entities with a climate impact project.

#16

Peace, justice and strong institutions

- All collaborations are carried out with solid institutions, with prior knowledge of them and taking all appropriate due diligence measures to avoid criminal or unethical activities.

#17

Partnerships for the goals

- Work together with leading institutions in our areas of activity by supporting their projects, co-creating new projects and promoting relationships with related institutions to find synergies to achieve the goals set.
- Get institutions with which we collaborate as a Foundation in touch with each other, such as the ConectArte Conferences at SONAR+D, the Entrepreneurship and Leadership Programme of the Reina Sofía Music School, the social innovation programme B-Value and the Young Talents Cycle of the Banco Sabadell Foundation.
- Collaborate at Banco Sabadell Group level with those divisions that have an impact on the Sustainable Developments Goals.

A

CIDOB and Banco Sabadell Foundation Global Talent Programme Award

Together with CIDOB (Barcelona Centre for International Affairs), we launched the Global Talent Programme to promote quality research from young researchers through two awards that highlight works of a high academic standard that have an original analytical approach and that include applied research.

- We awarded two awards: the “Talent Award for Global Challenges” and the “Talent Award for Europe in the 21st Century”.
- The Programme also aims to support the training of young talent with the “Junior Visiting Fellowship” open call, which gives the opportunity to a young researcher up to age 30 of joining CIDOB’s research team.

20th Banco Sabadell Foundation Award for Economic Research

We recognise the work of researchers in the fields of economic, business, legal and social knowledge.

The jury has recognised Prof. Mónica Martínez-Bravo as the winner of this year's edition for her research work in the fields of political economy and economic development and, in particular, for her contribution to the analysis of factors determining the degree of success or failure of democratic transition processes.

“Receiving this Award has been an incredible honour. I hope it helps to spread the type of research we carry out in the field of economics, such as for example, the wide variety of topics we cover, the scientific rigour and the empirical approach that oftentimes has our research work”

Prof. Mónica Martínez-Bravo

5th Banco Sabadell Foundation Award for Science and Engineering

We discover and support the talent of young researchers resident in Spain in fields such as mathematics, chemistry, physics and engineering.

Prof. Ana Tajadura-Jiménez, a UC3M Researcher with a PhD in Psychoacoustics from the Chalmers University of Technology in Sweden, won this year's edition for her research into the design of sensory technology to change people's perception of their own bodies in real time, creating Body Transformation Experiences. This Award is organised in collaboration with the Barcelona Institute of Science and Technology (BIST).

16th Banco Sabadell Foundation Award for Biomedical Research

We highlight the work of young researchers in the field of biomedical science through one of the most important accolades in Spain's biomedical industry.

The jury has recognised Dr. Guadalupe Sabio Buzo, a CNIC Researcher with a PhD from the University of Extremadura, in collaboration with the British Medical Research Council in Dundee (Scotland), for her research on understanding why obesity causes cardiometabolic diseases.

Education project “La Misión ALIA” in collaboration with CCCB

In collaboration with CCCB, we launched “La Misión ALIA”, an education project linked to the Mars exhibition that links scientific dissemination with artistic and literary creation.

Six groups of Barcelona secondary school students, supported by a group of scientists, an artist and a science fiction writer, take part in some of the most important research programmes of the Institut d’Estudis Espacials de Catalunya (IEEC).

The project proposes to these 210 students a cross-disciplinary work between scientific research and artistic creation, which aims to explore six of the biggest challenges posed by space research today and the challenge of making Mars and the Earth an inhabitable place.

Consolidating the B-Value Programme with its 5th edition

We recognise social entities and support them for nine months to help develop their projects from a strategic and innovative vision via the B-Value Programme, organised together with the Ship2B Foundation.

- For nine months, these entities receive training and mentoring from different professionals who help them rethink their projects and make their value propositions more professional.
- In this 5th edition, more than 40 social entities have participated, 12 of which have been selected as finalists and 42 mentors from Banco Sabadell have taken part.
- 6 entities have been awarded in this year's edition: Asociación YouSocial Volunteer; Fundació Privada Mas Albornà; Associació Verificat; Fundació d'Oncologia Infantil Enriqueta Villavecchia; Fundación Universo Accesible and AVIFES.

Science, art and innovation: stars of ConectARTE

ConectARTE is strengthened once again this year with the celebration of its fourth edition, held as part of SónarCCCB 2021, the international congress that explores how creativity modifies our present and envisions new futures.

- We gather together cultural organisations from all over Spain to share approaches and reflect through various debates and conversations on the necessary relationship between science, art and innovation.
- Mónica Rikic, Valerio Rocco, Imma Aguilar and Anna Díaz participate on the various conversations of the day.

“The greatest innovation today is the result of creative inter-disciplinarity, and in all these instances we need to act to achieve it”

Valerio Rocco
Director of the Fine Arts Circle of Madrid

Social entrepreneurship and innovation for music students

We collaborated with the Social Entrepreneurship and Innovation Programme of the Reina Sofía School of Music to provide more employment opportunities for its students and to prepare them for their future professional careers.

The students carry out a real project and, through the design and implementation of this project, they learn concepts including administrative and budgetary management, teamwork, communications and digital marketing and production.

Each year, around 20 students participate in the programme and develop skills that go beyond performance. In addition, they become aware of the role they play as artists in society.

Young talent and artificial intelligence

Together with the Ellis Foundation, we promote young talent in the field of artificial intelligence.

The programme supports four students of the ELLIS programme towards their PhDs at the University of Alicante. A fifth PhD student of the ELLIS programme can carry out a research stay (of 6 to 12 months in duration) at the Fundación Unidad ELLIS Alicante.

“Collaborating with Unidad ELLIS of Alicante is a privilege as it is a unique foundation in Spain engaged in research excellence in the field of artificial intelligence with this clearly humanist and social focus”

Miquel Molins
Chairman of the Banco Sabadell Foundation

Banco Sabadell Foundation Young Talents Cycle

The Amigos del Teatro Real Foundation held a series of concerts under the name “Banco Sabadell Foundation Young Talents Cycle”, which offers a training experience and a professional opportunity to students of the Reina Sofía School of Music.

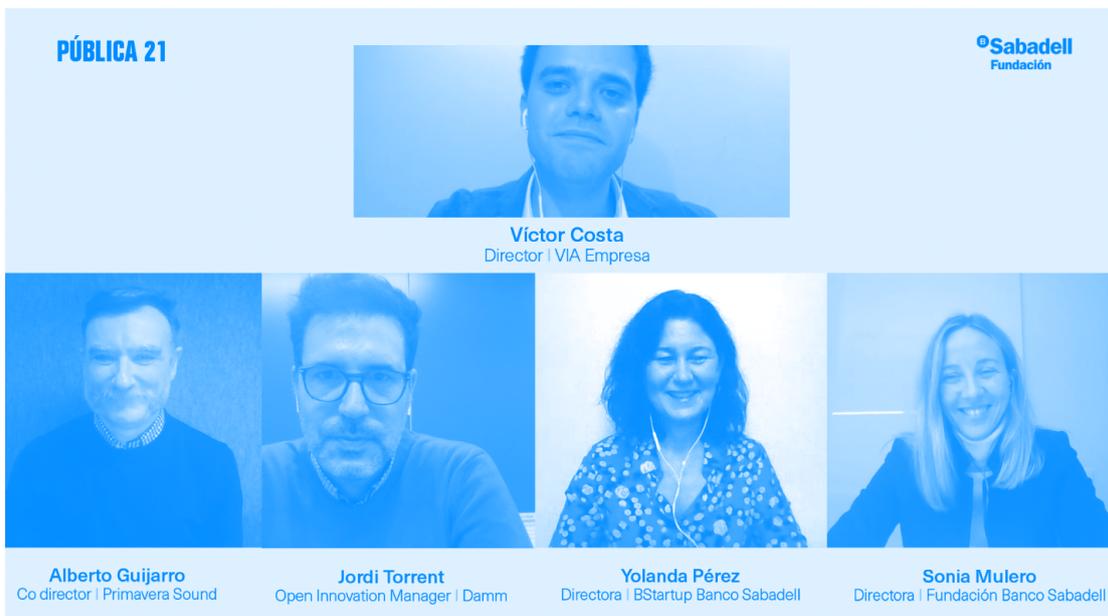

— This project presents and performs a repertoire linked to the opera programme of the Teatro Real in a series of four concerts and four training sessions.

— The Cycle provides cultural and artistic content to young friends of the Teatro Real and students and friends of the Reina Sofía School of Music.

Meetings for culture professionals

As part of PÚBLICA21, we organised the round table “The culture of innovation”, a space in which speakers and highly experienced figures in the sector defined innovation as a core pillar of the organisations and companies that are best adapting to our quick-change environment and unforeseeable challenges.

Pública is a meeting for culture professionals held by the Fundación Contemporánea and the Fine Arts Circle of Madrid to share stories, opportunities and experiences on cultural management.

“Culture helps develop critical thinking through research, arts and our own emotions”

Sonia Mulero
Director of the Banco Sabadell Foundation

Eñe Festival: Literature's leading festival

We strengthen our commitment to arts and literature through our collaboration with the Eñe Festival, the sector's leading festival.

The festival is comprised of conversations, meetings or recitals, among other activities, in which some of the leading figures in Spanish language literature and culture such as Fernando Aramburu, Almudena Grandes, Santiago Auserón, Manuel Vilas, Marta Sanz, Juan Villoro, Najat El Hachmi, Lluís Pasqual, Andrés Trapiello, Elia Barceló, Fernando Savater, Guillermo Arriaga, Luna Miguel, Jorge Drexler and many more take part.

Hay Festival Segovia

As part of the festival, the Director of the Banco Sabadell Foundation, Sonia Mulero, held a conversation with Valerio Rocco, Director of the Fine Arts Circle, under the name: “The Transformative Power of Culture”.

This year, Hay Festival Segovia held its sixteenth meeting in which leading figures in literature, graphic design, journalism and photojournalism, architecture, landscaping and the arts, among other fields, took part.

The poster is light blue with a stylized blue flower logo at the top center. Below the logo is the text 'HAY FESTIVAL SEGOVIA'. A white box with a blue border contains the event details: 'Evento [24] 13.30h VIERNES, 17 TORREÓN DE LOZOYA'. Below this, the names 'Valerio Rocco y Sonia Mulero' are written in large, bold blue font, followed by 'en conversación'. At the bottom, the title 'EL PODER TRANSFORMADOR DE LA CULTURA' is written in smaller blue font. A large, stylized blue flower graphic is in the bottom right corner.

EL PODER TRANSFORMADOR DE LA CULTURA

Dialogues for critical innovation: culture, knowledge, society

The Fine Arts Circle holds “Dialogues for critical innovation”, meetings aiming to exercise a critical and cross-disciplinary diagnosis of the idea of innovation in the artistic and humanistic fields with which we collaborate.

The project is comprised of ten dialogue sessions in which researchers from the Autonomous University of Madrid reflect and chat about the concept of innovation with ten leading figures in various fields of the world of culture, including the First Deputy Prime Minister and Economic Affairs and Digital Transformation Minister, Nadia Calviño; the writer and filmmaker, David Trueba; the writer, playwright and cultural manager María Folguera and the publicist Toni Segarra.

Young talent and theatre

In collaboration with the Banco Sabadell Foundation, the Teatre Lliure promotes the Carlota Soldevila Extraordinary Support for Artistic Creation, which are grants that support the creation of 20 projects from talented young people in the theatrical field.

- The projects that have received these grants are distributed in four categories: design of stage projects, drama plays, street arts dramaturgy and 0-21 staging for audiences under 21 years of age.
- One of the winning projects is selected to become part of the company and resident artist of the next season of the Teatre Lliure.

A Tempo. Art and Training

We collaborated with A Tempo, an educational project promoted by Temporada Alta and the Ciutat Invisible Foundation, with the aim of developing critical thinking in citizens to actively participate in the region's cultural life.

The project is comprised of activities that generate cultural experiences aimed at students, scheduling activities in and out of the classroom, during school hours and for free; and training programmes that create meeting places and facilitate the exchange of knowledge, tools and resources for professionals in the arts and education.

Bringing photography closer to the social, artistic and educational spheres

We promote culture by supporting exhibitions such as the Foto Colectania Foundation with the aim of disseminating photography and making it known in the social, artistic and educational spheres of our country.

Some of these exhibitions in which we have taken part as main contributor include Mary Ellen Mark - Women's Lives; Txema Salvans - Perfect Day; and the collective exhibition Face Control.

7th Edition of the Celera Programme

Celera, a talent accelerator with which we collaborate to train young people with exceptional talent in our country, consolidated itself further this 2021 with its seventh edition of the programme.

- Young talent from all editions of Celera have led some of the most relevant flagship projects in scientific and technological entrepreneurship of recent years.
- The programme follows a new acceleration model focused on people that develops careers and projects with a long-term view.
- Each year, 10 young people are selected to provide them with the tools necessary to enhance all of their personal and professional skills and thus take advantage of their full potential.

The best way to predict the future is to create it

Reto Futuro (Future Challenge) is a social entrepreneurship programme aimed at young people in vulnerable situations. It is designed to offer them educational content, accessible technological tools and the support of mentors, so that they can go through a learning and transformative experience that prepares them for a future that they themselves can create. The programme has been co-created by the Banco Sabadell Foundation, the Imagine Creativity Centre and the Exit Foundation.

In this second edition of the programme, 29 teams of 3 young people, a teacher from their institution, a facilitator expert in the Lombard methodology and a trainer, employee of Banco Sabadell, have taken part.

Reinforcing our commitment to IRB in its fight against cancer

We joined the Metastasis Challenge, a project from IRB Barcelona that aims to generate awareness of the need to promote research to stop the metastasis of various types of cancer.

“I am convinced that any investment made in IRB will result in a substantial improvement not only in scientific knowledge but also in clinical practice”

Miquel Molins
Chairman of the Banco Sabadell Foundation

Mentoring and talent management programme

We are committed to talented university students in the field of information and communications technology through a new mentoring and talent management programme co-promoted together with the University of Alicante and CCTA.

- The selected students have the opportunity to participate in a Mentoring and University Talent Management Programme, in addition to receiving practical training and the support of 28 specialists.
- The top five students move forward to a work placement at Banco Sabadell.

3rd ANFACO — Banco Sabadell Foundation Design Award

We encourage and recognise the creative talent of young designers through a Design Award that we promote together with the ANFACO Association – Cecopesca.

- Laura Campos won the third edition of this Award for her excellent packaging proposal.
- The Award values originality in graphic design, the iconography of the elements, chromatic harmony and the application of typography, as well as the possibilities of applying the design envisioned to a real market situation.

“It is marvellous that organisations such as the Banco Sabadell Foundation make this type of initiatives possible so that graphic designers like myself can keep growing and gaining recognition which for sure will open new opportunities in the job market”

Laura Campos
Winner

Cohabitation and exchange of knowledge in Galicia

We collaborated with Cidade da Cultura, an institution that organises the 11th Encontro de Artistas Novos, a meeting space in which emerging creators have the opportunity of showcasing their works and discussing contemporary art.

- The Encontro de Artistas Novos (New Artists Forum) has a total of forty places available for professionals born between 1986 and 2003, students and graduates in Fine Arts or related disciplines, who can demonstrate an artistic track record or project.
- The artists have the opportunity of living together and exchanging knowledge and ideas with various cultural agents such as critics, curators or art followers in the city of Santiago de Compostela.

Azkuna Zentroa artist-in-residence

Azkuna Zentroa held Prototipoak, a meeting that collects the creative projects that have been carried out in this centre in Bilbao related to the main aspects of its programme with which we collaborate.

The aim of the two-year programme is to study nature, performativity and multiplicity of social spheres through the arts, in addition to contributing to their training critically from a poetic, aesthetic and political dimension.

Conferences on sustainability

The University of Navarra promotes a series of conferences aimed at young people. The Banco Sabadell Foundation collaborates with this initiative. Under the name “For a sustainable future”, sustainability is addressed from various approaches and points of view.

The aim of these sessions is to inform with rigour and clarity on various aspects related to sustainability and the environment, which are very prominent in the media today and, by extension, in the public opinion.

— The conferences are led by professors and researchers of the University of Navarra and experts from other institutions.

“Thanks to the collaboration of institutions such as the Banco Sabadell Foundation, we can launch initiatives that make our commitment to sustainability a reality”

Alfonso Sánchez-Tabernero
University Chancellor

Bringing the best European movies to the classroom

We collaborated with the educational programme that takes place as part of the Seville European Film Festival with the aim of placing European cinema at the centre of the education of children, teenagers and young people, helping to support their academic, cultural and social development.

At the European Film Festival, we participated in the sections “Moviegoers of the future”, “Junior Europe” and collaborated with the project “Moviegoer Window”, a proposal that connects young people with various networking initiatives that are being developed in Europe.

Opera, theatre and dance in Andalusia

We collaborated with the Sala Manuel García of the Teatro de la Maestranza with the aim of supporting contemporary creations and their creators, new aesthetics, young musicians and lyric singers.

This project is the result of our commitment to promoting talent and supporting culture as the cornerstones of social welfare from a local perspective, stimulating excellence and fostering innovation.
